The bride, who was given away by her father, was very pretty in a gown of soft white silk, with a delicate lace and pearls, a long tulle veil caught with a diamond bandau and "reverie" was very graceful. The curtain detective, is effective and Maxine Gibbons, the maid of honor, was a rose. The finishing touch to her toilette was a lovely pearl and sapphire necklace—the gift of the bride.

The bride's sister, Miss Alice Gibbons, who was a bridesmaid, wore a delicate pink chiffon gown on pink satin, relieved with crystal trimmings. A crystal bandau and "reverie" was the finishing touch to her toilette.

But after all, it was Maggie Pepper the makes the biggest appeal. And she did not fail to do her best.

The supporting company is excellently chosen. John S. Robertson as the curtain detective, is effective and Maxine Gibbons, the maid of honor, was a rose.

SUNDAY BUSINESS.

The Attorney-General's department has issued flats to the city police authorizing the prosecution of a number of proprietors of refreshment booths whose places of business have been kept open on Sundays.

The closing—or attempted closing—of these stands will probably bring a long complaint from certain quarters. And there is something to be said on behalf of the large number of people in the over-worked condition of the city who are hired to clean and closing houses, and who find an occasional adjournment to an ice-cream parlor a welcome break in a monotonous day.

But the difficulty is, that if the line be not drawn sharply it can not be drawn at all. If the ice-cream dealers are allowed to open, then the cigar sellers will claim the same privilege, and the booth-block stands, and the moving picture theatres, and the pool-rooms, and other institutions which cater to the entertainment of the public. The choice really narrows down to a wide-open Sunday or a Sunday with all places of business closed. As between the two, the public opinion will stand for the rigid enforcement of the law.

THE HUDSON'S BAY ROUTE.

The Minister of Railways announced that it was expected to have the Hudson's Bay railway completed next year, and that it will be finished during the following year at latest. Port Nelson he said, has been chosen as the Bay terminus rather than Fort Churchill, because construction to the latter place would be more costly.

Unfortunately, the harbour facilities at Nelson are not naturally as good as Churchill, and a vast amount of labour would be at great expense to make the port serviceable. This extra cost in the preparation of the harbour will probably get away with most of or all of the money that may be saved in constructing the railway to Nelson instead of to Churchill. When the railway is in operation, unless the harbour improvements are begun promptly and carried on energetically, the railway will have to be useless after it is completed until the harbour improvements are made. And to send around to the Bay and maintain there an expedition to the port on the harbour bank before the railway has been completed would be an abnormally expensive business.

Western people will hope that the Minister's forecast as to the time of completion of the railway may be fulfilled. They may not see very clearly, though, how his choice of Port Nelson as a terminus will have the opening of the new route to the Bay, and the port will be useless until the harbour improvements are made.

Restrictive laws do not always bring what their framers aim at when they are passed.

AWARDED KING'S MEDALS.

Presentation Made to Members of Wimipeg Force.

Wimipeg, May 29.—Surrounded by an admiring throng and faced by the King's Commissioner, Sir George, on the annual inspection and parade, Sir Rodman Roblin, Premier of Manitoba, handed over the King's medals to the King's men awarded by His Majesty to Ex-Chief of Police John McRae and Constable Brown. The two were awarded the King's medals for their services in the rescue of a drowning man at a swimming hole in Wimipeg.

POT CALLS KETTLE BLACK.

The Journal has learned its readers that the Silver Fox Government is unusually partisan and unfair, because advertisements dealing with Provincial matters are not inserted in newspapers which opposed the Government in the late elections.

TRINITY'S PENISON.

San Francisco, May 29.—The Borden Government here, despite the fact that a Southern newspaper says it is true, but that in doing so the Government does worse or any differently than every other government that has held power in the Dominion or in any of its Provinces has done is not true. The Borden Government signalized its entry to office by cutting

off the patronage list all the Liberal newspapers in the Dominion and putting on the list all the Conservative papers which were not there already. The Borden Government is the Minister of the British Government of British Columbia, and the Whitney Government of Ontario, confine provincial advertising strictly to news papers which support their candidates. Even Mr. Hartman, head of a professedly non-partisan Government, and in a Conservative capacity, has been from the party, consistently and persistently refused advertisements to papers which had criticized his administration—even when the papers in question were Conservative in Federal affairs.

The practice may not be a good one, and is one that should be subject to strict regulation. While there is only one newspaper in a town, an advertisement of concern to the people of that district should certainly be inserted in its columns, regardless of the political complexion of the paper. But the practice of confining the patronage to friendly papers is common, if not universal, everywhere in Canada. Had the Opposition won in Alberta, either the traditions of the Conservative party would have had to be abandoned or no Liberal paper in the Province would have been allowed to publish a Government advertisement for the next five years. And the Conservative papers would have had to gain to defend the policy of penalizing opponents and patronizing friends.

Current Comment

A Distinction.

To the Editor:—Globle, Premier Borden seems to be in opposition that he could cut down the ordinary expenditure by ten millions. So he could, but little man who could cut off, the amendment to the Borden Naval Bill, moved by the Liberal leader in the Senate, to the Launder Naval Service Bill, moved by the Conservative leader in the Senate, when the Conservatives were in opposition.

Gratuitous Punishment.

Montreal Star and Empire: The Montreal Star sold wood alcohol to a number of foreigners and caused the death of eleven persons. It has been decided that the United States do not have to agree to the United States for an amending failure of the law to deal adequately with crime.

Between Friends.

Montreal Star and Empire: The Borden Government would have no objection if it is entirely safe to say, to allow the Highway Bill to be amended as was done. It is safe to say that all the provincial governments were, and are, willing to be like the present government of the province in political complexion.

The Mistake.

Calgary Albertan: How Mr. Michener says that he is an admirer of the Borden Government, and that he may have made a mistake in the name. President Wilson is opposed to high-tariff legislation, and Mr. Michener indicates that men in public life, having a premium should keep it. If President Wilson had made the mistake of the majority of the provinces to the people of Western Canada, he would have carried the bill, and the Borden Government, in making it sure and certain that all the provincial governments were, and are, willing to be like the present government of the province in political complexion.

An Excuse.

Montreal Gazette: A new by-law prohibiting the erection of apartment houses in residential districts having two or more stories, and where the entrance is taken out for the building of two-room houses, which is being carried under the heading of a dwelling—a building either detached or in a block used as a residence and occupied by a family, may, therefore, reside in the two-room houses, which will certainly be a great convenience to the families who may, therefore, reside in the two-room houses with its numerous stories.

Restrictive laws do not always bring what their framers aim at when they are passed.

Duke Cannot Speak ANOTHER YEA RHEDE.

London, May 29.—The Duke of Connaught will probably return to Canada in July and perhaps will accept another commission to inspect the forces. Proposals to adopt a form of paid-up insurance and to make the loss of one's life a sum certain have been submitted for £2,500 available after August first, was agreed to and the insurance of policies now in effect, were rated \$50 and \$100 respectively. The increases will be added August last.

No Necessity For Board of Censors

B. Chadwick Says Moving Pictures Are All Scrutinized
Before Shown Here

R. H. Chadwick, censor of moving picture films for Alberta, is opposed to the formation of a Board of Censors, consisting of several members, who would sit in the different cities of the province to pass upon the propriety of the films shown in the various theatres. The appointment of such a board would be an unnecessary expense in Alberta.

Mr. Chadwick and Montreal which spend several hours a day examining films which are to be exhibited in the major cities of the province of Ontario and Quebec, Mr. Chadwick points out that with the exception of local films, which are made within Alberta have been passed by some other board and he considers that the approval of the other than Montreal board would be sufficient.

Mr. Chadwick has now been acting censor of moving picture films for several months and has found that only a very small percentage of moving picture film—few hundred feet—have any objectionable scenes.

He states that the moving picture men in the towns and cities of Alberta are anxious to run their local theatres and that the censoring of films is a waste of time.

Four Others Taken on Since the Strike

Moose Jaw, May 28.—Tonight the
situation is far more acute concerning
the strike of nurses at the city hospital.
Four others have been taken on since
the strike began. They also said to have
walked out, demanding the resignations
of Superintendent Beckmar and
Matron. There was another meeting of the
hospital directors tonight, but no decision was
reached. The strike was suspended, but they
were not admitted. The matter is being taken up by the
trade and labor council. The Daugh-
ters of the American Legion, the Knights of
Columbus, the Knights of Pythias and
several other organizations are about
to step in. Walter Newton deman-

NEW THEATRICAL CIRCUIT.

A new Alberta theatrical circuit, to
comprise small towns which are not
represented by regular circuits, is
proposed by Mr. Louis Mosenberg,

POSED AS A MONK.

Clad in the habit of the Cisterian
Order, a Pseudo monk, calling him-
self Brother Francois, is said to have
been seen in the grounds of the
South Club, his habit consisting to
an end, however, through the action of a
Mr. Beauchamp, who, when told by
the monk that he was a monk, asked
him how it was that if he were a
Trappist he could be wandering
about the city. Beauchamp, for
certainly, expected him to be
known to break the seal of silence,
but the monk, who had a shaven
moustache, begged to be excused, and taking
his departure swiftly has not been
seen since.

An Epoch Making Coup in the History of the Tobacco Industry

In "Kismet" Cigarettes we present to the fastidious Turkish cigarette smokers of Canada the tobacco coup of the century.

Through the keen foresight of our London house, we are enabled to offer a rare, delicious new cigarette to the gentlemen of Canada.

At the first indication of possible war in the Balkans, our London house foresaw the present shortage of the best Turkish tobacco. In increasing consumption of Turkish tobacco, together with the decline in the production of Turkey, the age in the finest grades of Turkish tobacco.

A tobacco shortage has forced other manufacturers to use the recently grown,atty, indifferent crops of Egypt, India, and Ceylon.

Fortunately, we have not been

forced to use these undesirable crops.

Our London house anticipated this, and, in increasing consumption of Turkish tobacco, together with the decline in the production of Turkey, the age in the finest grades of Turkish tobacco.

It is this pre-occupation of Turkish tobacco that has caused the Canadian patrons in the "Coup of the

Century" to turn to "Kismet" Cigarettes.

Seaton's First Defeat.

New York, May 29.—The Giants broke the Philadelphia winning streak with a 10-3 victory, while Boston was winning an exciting four-runinning game 1 to 0. Fletcher's long hit over Marce's head was the winning hit, and Shaffer with the winning run. Shaffer had singled with two out. These were the only hits made by Seaton's team in the first six innings for Philadelphia. The defeat was Seaton's first this season, the score being a tie in the ninth.

The Philadelphians threw away many chances in the early innings byreckless hitting. In the second, when they had the game won, McGraw and Snodgrass were both put out in the field in the eleventh for拙劣的打擊。
